*Productive
meets smart*

Smart factory printing

In today's fast-paced enterprises, simple operability and high-quality performance are preconditions to achieving maximum efficiency and completing all office work quickly and without fuss. At the same time, the full integration with cloud services should provide the right processes at the right time to build more convenient workflows. The ineo 950i and 850i offers all this and more. On top, it is equipped with the latest security technology to ensure a reliably safe user environment.

Grow your business

We place great importance on empowering you to grow your business with our solutions. For instance, the two monochrome devices help enhance diversity with its extensive variety of supported media, from thin to thick paper (up to 300 g/m²). They also process envelopes and prints on long sheets of up to 1,200 mm in simplex.

Maximise your investment

We want to make sure that you get the most out of your ineo – that's why we have changed the user interface and made it entirely customizable for more convenience. Combine your printing system with various inline finishing capabilities and produce more than ever, with idle times kept to a minimum.

Improve customer loyalty

Equipped with an innovative media sensor, the devices automatically detect paper type and weight and reliably apply the right settings – which guarantees an optimized output quality. The sensor also detects envelopes saving time and minimizing the need for operator intervention. A new paper cabinet allows mixed-size paper loading, further enhancing user convenience.

The ultimate in digital connectivity

Achieving a level of durability and build solidity never before seen on an MFP, the 850i and 950i has been designed to perform and is built to last. Outstanding print stability is achieved thanks to multiple improvements to basic functionality. The i-Series' signature stylish and simple look is married with the ultimate in digital connectivity to create an office environment that supports your work from page one to page infinity.

Intuitive operability

Operate the ineo like a smartphone or tablet with fully customized user interface.

Productivity

Reliability, high-speed scanning and printing, combined with powerful finishing functions.

Security

Secure network integration, data encryption, hard drive overwrite, and advanced user authentication.

Mobile connectivity

Print anytime from anywhere with innovative mobile technologies.

State-of-the-art-print-server

Own Print controller

Dedicated to the ineo 950i/850i, our print controller comes with powerful workflow benefits offering enhanced accuracy in reproduction as well as full compatibility with print engine on-board job control and editing functions.

Take the lead and show responsibility

Made for your business

The ineo 950i/850i is designed to provide all the functionality of a small-scale print shop, all combined into a single unit suitable for an office space. This makes it ideal for a wide range of offices, government, legal, education, membership organizations and healthcare. As an ineo, the 950i/850i offers an entirely digitized workspace, providing smooth workflow and managed content services that make it the ideal choice for a broad range of situations.

Designed for our planet

Konica Minolta promotes sustainable development and integrates environmental and social perspectives into its business strategies. You can rely on Develop products to underpin your green strategy to build your business.

Committed to help prevent global warming, Develop strives to reduce CO₂ emissions during product manufacture, product distribution, at the sales stage, and during product use – with even stricter targets than demanded by the Kyoto Protocol. Enabling carbon neutrality, Develop offers its customers the offset of unavoidable CO₂ emissions for production printing. Together with the experts from Climate Partner, Develop proposes a new and profound eco concept for our professional production presses.
